

AA FLIGHT MAKES EMERGENCY LANDING AFTER CABIN FILLS WITH SMOKE

News / Airlines

A **smoky cabin** forced an **American Airlines** jet to make an emergency landing on approach to Dallas/Fort Worth International Airport Sunday afternoon, according to an airline spokeswoman.

American Airlines flight 5775, operated by MESA Airlines, was scheduled to arrive at Dallas/Fort Worth International Airport from Des Moines International Airport, according to Victoria Lupica, American Airlines spokeswoman.

The crew of the CRJ-900 reported an issue with a smoky cabin upon their approach into D/FW airport, Lupica said. The aircraft landed and deplaned safely on a taxiway.

All 76 passengers and four crew were bused to the terminal building. No injuries were reported.
