# SWISS AIRBUS A320NEO FAMILY AIRCRAFT POWERED BY GTF ENGINES

**News / Airlines, Manufacturer**

**SWISS took the delivery of their first Airbus A320neo, powered by Pratt & Whitney GTF™ engines. Pratt & Whitney will also provide SWISS with engine maintenance through an EngineWise® Protect service agreement. Pratt & Whitney is a division of United Technologies Corp.**

**“Thanks to their innovative GTF engines, the Airbus A320neo family aircraft will make a major contribution to SWISS’ environmental efficiency while providing our passengers a quieter trip,” said Thomas Klühr, CEO of SWISS.**

**“We’re thrilled that SWISS has decided to add additional GTF-powered aircraft to its fleet with the A320neo,” said Rick Deurloo, chief customer officer at Pratt & Whitney. “Pratt & Whitney truly values the confidence that SWISS has placed in the clean, fuel-efficient geared fan technology of the GTF engine, and we look forward to supporting their fleet for many years to come.”**

Since entering into service in early 2016, the GTF engine has demonstrated its promised ability to
