

BOMBARDIER'S NEWEST CHALLENGER JET MODELS SURPASS SIGNIFICANT DELIVERY MILESTONES

News / Business aviation, Manufacturer

- **Challenger 350** aircraft surpass 200 deliveries, as the **Challenger 650** business jet marks 50th delivery
- Category-defining **Challenger 300** series aircraft now count more than 650 deliveries overall, making it the most delivered aircraft of last decade; **Challenger 600** series jets now approaching 1,100 deliveries
- Significant milestones confirm the unrivalled capabilities, smooth ride and strong market acceptance of Bombardier's best-selling business jets
- **Challenger** aircraft have the lowest direct operating costs in their segments and longer maintenance intervals

Bombardier Business Aircraft announced today that its industry-leading **Challenger** aircraft accomplished two important delivery milestones in the past few months. The super midsize **Challenger 350** aircraft has surpassed 200 deliveries, and the more recently introduced large cabin **Challenger 650** aircraft has exceeded the 50-delivery mark.

Thanks to their exceptional cabin comfort, connectivity and reliable performance, both **Challenger** models have proved a leading choice among private aviation customers, dominating their respective classes in terms of unit sales. The **Challenger 300** aircraft series have garnered more deliveries than any other business jet platform in the last

decade, and the *Challenger 600* series aircraft is the best-selling business jet of all time in the large category.

“Achieving these significant delivery milestones is a testament to the unrivalled capabilities of our newest *Challenger* aircraft,” said Peter Likoray, Senior Vice President, Sales and Marketing, Bombardier Business Aircraft. “No competitor comes close to the comfort and connectivity of the *Challenger* aircraft’s cabin, or to their class-leading economics and dependable performance in operation. They simply deliver it all. It’s no surprise these aircraft are highly favoured by experienced flight departments and individuals around the world.”

Challenger 650 aircraft feature an advanced wing design that minimizes the effect of turbulence, resulting in a smoother ride from takeoff to landing. An unparalleled smooth ride elevates the aircraft’s unmatched connectivity and cabin comfort to the next level.

Challenger series aircraft feature the latest in internet technology. The *Challenger 350* aircraft offer the fastest and most reliable air-to-ground internet coverage over North America available for business aircraft with high-speed 4G internet service technology. With a true 4,000 NM (7,408 km) range capability, the *Challenger 650* aircraft offers the revolutionary Ka-band high-speed internet system, the industry’s fastest in-flight Wi-Fi connectivity with worldwide coverage*. Bombardier is the first and only OEM to offer the Ka-band system for business aircraft in the medium category.

The *Challenger* aircraft continue to define their categories with more than 650 deliveries for the *Challenger 300* series and close to 1,100 deliveries for the *Challenger 600* series. *Challenger* aircraft have the lowest direct operating cost in their respective categories due to affordable maintenance programs and longer maintenance intervals than the competition. Bombardier’s new *Smart Services* offering, the most competitive cost-per-flight hour coverage, brings budget predictability to a whole new level with enhanced adaptability and greater customization. Enrollment is open to existing Bombardier customers and à-la-carte coverage now includes landing gear overhaul and unscheduled maintenance.

Challenger 350 aircraft: Designed with a no-compromise approach, the *Challenger 350* aircraft effortlessly blends powerful performance and sleek styling to deliver an unrivalled private jet experience. Industry-leading connectivity, immersive sound and ergonomically-positioned touch screens are seamlessly integrated to create an intuitive and incomparable cabin experience. Paired with impressive high-performance attributes, the *Challenger 350* aircraft is designed to access challenging airfields, climb faster, and cruise efficiently while providing a smooth ride. Standing the test of time, the *Challenger 350* aircraft is the best-selling business jet platform of the last decade.

Challenger 650 aircraft: A masterful expression of high-end craftsmanship and functionality, the *Challenger 650* aircraft is designed to be the most reliable business aircraft. The *Challenger 650* business jet provides the ultimate in-flight experience with industry-leading connectivity, an immersive sound system, and a cabin management system that effortlessly brings it all together in the widest in-class cabin. Built upon the most successful large segment business aircraft platform of all time and designed to create a smooth ride and an unforgettable experience, the *Challenger 650* aircraft is the most successful large business aircraft platform of all time.
