The Dream Jet is a masterpiece of aerospace engineering and design craftsmanship. This ultra-long-range private jet has a 220 sqm. cabin with private spaces for guests, crew, and butlers; equipped with unlimited luxury amenities and entertainment options. The unique cabin architecture provides with larger windows, quieter environment, and cleaner air. The Dream Jet pressurizes its cabin a full 2,000 ft lower than other aircraft for smoother rides and improved flying comfort. The aircraft is one of the most aerodynamically efficient in the market too, with a truly global range, flying nonstop for up to 17 hours.

Deer Jet had crafted seamless luxury travel which begins on the ground with a butler service and moves to the cabin delivering the finest and unique experiences each and every time you fly. Deer Jet has already demonstrated this aircraft by hosted a number of privileged guests on board, and for the first time, the “Dream Journey” experience is offered to a broader customer base.

Guests will delight in exceptional activities in this paradise, as they are embarking on memorable journeys of cultural discovery. In Tahiti, days are for sunbaths, contemplation of the tranquil blue skies and the exploration of nature’s mysteries. After sunset, nights turn into festivities with the finest dining accompanied by the delightful rhythms of traditional dances.

With the Dream Jet, Deer Jet plans to fly VVIP guests from one extraordinary destination to the next one. And the first “Dream Journey” is about to take off from Hong Kong. Aboard the Dream Jet guests enjoy the distinctive state-of-the-art services and amenities signature of Deer Jet. Once at the destination, guests uncover the magic of Tahiti as experienced by selected few.
