

FOR THE SECOND CONSECUTIVE YEAR DC AVIATION OFFSETS 1.5 MILLION LITERS OF JET A1 FUEL SALES AT MALTA INTERNATIONAL AIRPORT

News / Business aviation

For the second consecutive year DC Aviation has successfully offset the sale of 1.5 million liters of Jet A1 fuel at its FBO located at Malta International Airport. This significant achievement has been made possible with the invaluable support of AZZERA. DC Aviation remains fully committed to promoting a more sustainable aviation industry through affirmative action. By offsetting the sale of Jet A1 fuel, the company actively contributes to mitigating the environmental impact associated with aviation operations. This endeavor highlights DC Aviation's unwavering dedication to environmental responsibility and its firm resolve to foster a more sustainable future.

The successful offsetting of 1.5 million liters of Jet A1 fuel sales at DC Aviation's FBO at Malta International Airport exemplifies the company's leadership and commitment to sustainable practices within the aviation sector. Through its collaboration with AZZERA, a renowned advocate for environmental initiatives, DC Aviation continues to drive positive change and set an exceptional example for the industry.
