

FREEDOM II SUCCESSFULLY RECEIVES CERTIFICATION FOR ALL-VIP B757-200, SETTING THE AIRCRAFT READY FOR CHARTER

News / Business aviation

ACC Aviation announced the all-[VIP Boeing B757-200](#) is ready to commence charter work, newly certified by the Bermuda Civil Aviation Authority and on the Air Operator's Certificate (AOC) of Freedom II. ACC Aviation is the aircraft's dedicated sales and marketing agent, providing direct access to this VIP 62-seater for ad hoc and charter programs.

The B757 is one of Boeing's most popular airframes, boasting impressive range and uplift capabilities, cruising speeds, and category-leading cabin comfort. This unique 62-seat configuration bridges the gap between private charter and scheduled services, providing a flexible transport solution for larger groups.

With the upcoming autumn season, including touring programs, substantial MICE travel, and the FIFA World Cup, the aircraft will provide much needed capacity for group travelling.

Phil Mathews, CEO of ACC Aviation, commented: "We are thrilled for Freedom II to have this unique aircraft on its AOC. With high demand for private jets and large commercial aircraft, there could not be a better time to bring this aircraft back to the market, and we are excited to see first enquiries coming through."
