

HAVEN AVIATION SERVICES GROUP UNVEILS LUXURY FBO, SETTING STANDARD FOR SERVICE, EFFICIENCY AND COMFORT IN THE TEXAS PANHANDLE

News / Business aviation

Haven Aviation Services Group announced the opening of Haven FBO at Rick Husband Amarillo International Airport (KAMA)—a brand-new, full-service facility and new member of the Avfuel Network. The FBO—operating out of a newly-constructed, luxury terminal—provides operators a premier gateway to the largest commercial hub in the Texas panhandle.

Travis Lamance, CEO of Haven ASG commented: “Haven FBO marks a new era of service for both our customers and the Amarillo community. From the moment of arrival, our focus is clear: deliver reliability, comfort and quick turns in a thoughtfully designed facility backed by our trusted team. With premium amenities and efficient service under one roof, Haven FBO offers a seamless, one-stop experience for every flight through Amarillo.”

Trent Reeder, Avfuel’s regional sales manager for the south central U.S. stated: “Avfuel congratulates Haven ASG on this exciting milestone and is thrilled to welcome Haven FBO to the Avfuel Network. By creating a seamless, one-stop destination for pilots and passengers, Haven ASG has raised the bar for service and operational excellence. We’re proud to support that vision

and be part of the elevated experience at Haven FBO.”

Visitors to Haven FBO enjoy a modern, thoughtfully-crafted environment. The spacious terminal features refined passenger and crew lounges, contemporary conference rooms (with seating for 12 and full A/V), private workspaces and a dedicated line service team ready to support quick, seamless turns. With direct access to Haven MRO, operators benefit from on-site maintenance support—keeping aircraft ready and minimizing downtime.

In addition to its upscale passenger amenities, the FBO offers a full suite of pilot-focused comforts, including fully-equipped rest areas, a massage chair, shower facilities and a well-appointed pilot lounge—providing the perfect space to relax and recharge between flights.

Outside, the expansive ramp—along with 35,000 square feet of hangar space—provides ample room for both transient and based aircraft, offering flexibility and convenience for all operators.

Purpose-built to maximize safety, save time and reduce costs for its customers, Haven FBO represents the final piece in Haven ASG’s fully integrated aviation experience. Together with Haven Aero—its Part 135 charter and aircraft management operation—and Haven MRO—the new FBO brings charter, maintenance and premier ground services together under one roof for a comprehensive approach to aviation support.

Located in the heart of the Texas panhandle, Haven FBO serves as a strategic gateway for business and leisure travel alike. Guests can take advantage of complimentary crew cars to explore nearby attractions such as Palo Duro Canyon State Park, Cadillac Ranch, and the American Quarter Horse Hall of Fame and Museum. For transient customers, Haven FBO is an ideal stop that delivers friendly, efficient service to quickly move travelers to their final destination.

As part of the Avfuel Network, Haven FBO provides customers with lucrative rewards with AVTRIP and competitive prices with Avfuel Contract Fuel. Customers also benefit from transaction ease when using the Avfuel Pro Card at the FBO with the ability to put everything—fuel and non-fuel

items with or without a fuel purchase—on one transaction, avoiding processing fees.
