

JETEX DELIVERS FBO SERVICES AT 15 LOCATIONS WITHIN WIDER EDEIS AIRPORT NETWORK IN FRANCE

News / Business aviation, Events / Festivals

Under a co-branding agreement with French airport developer Edeis, Jetex Flight Support will provide FBO services and ground handling support across 15 locations within the Edeis Airports network in France. This new partnership officially comes into play on June 1, 2017. The 15 FBOs will join existing Jetex facilities based in France, Ireland, Italy, Spain

and Ukraine, amongst others, bringing the total number of Jetex locations in Europe to 25.

“This partnership further expands the Jetex network across France, creating a stronger foothold for us in Europe,” said Jetex CEO & President, Adel Mardini. “The Jetex brand is synonymous with quality, and we will be working closely with the Edeis team to ensure our clients enjoy the unparalleled experience they expect from a Jetex facility.”

“Edeis is delighted to partner with Jetex and propel ground support service quality to new heights,” said Youssef Sabeh, General Manager of Edeis. “Under this agreement, we combine the excellence of the Edeis Airports network with Jetex’s reputation as a first-rate FBO provider, enabling each of us to grow our business aviation objectives. As a result, Edeis and Jetex clients will enjoy access to unmatched levels of service.”

Locations within the Edeis Airports network that are included in the agreement are Angoulême, Annecy Mont Blanc, Auxerre, Bourges, Châlon, Cherbourg, Dijon Bourgogne, Le Havre, Nîmes Camargue Cévennes, Reims, Tarbes Lourdes Pyrénées, Toulouse Francazal, Tours Vale de Loire, Troyes, and Vannes Golfe du Morbihan. The partnership will extend to other airports managed by Edeis in the future.

Leveraging on Edeis’s local expertise and Jetex’s ground handling experience, clients benefit from increased convenience when travelling throughout France. Additionally, the partnership opens up direct access to Jetex’s full range of services, including but not limited to global trip planning, fueling and bespoke concierge services. As one of the largest FBO networks in France, the partnership is set to bring more private aviation traffic to the country.
