

TITAN HELICOPTERS GROUP EXPANDS ITS OFFSHORE FLEET IN BRAZIL

News / Business aviation

Rotortrade announced successful completion of the sale of two AW139 helicopters to Titan Helicopters Group, a global provider of safe, efficient helicopter transportation and heavy-lifting services for the oil and gas sector. The acquisition of these two AW139 helicopters marks a significant milestone for Titan Helicopters Group's offshore operations in Brazil. The helicopters will be operated by Costa do Sol Ta?xi Ae?reo to support Petrobras, further strengthening Titan Helicopters Group's capabilities and cementing its position as a key player in Brazil's offshore industry.

Renowned for its exceptional performance and versatility, the AW139 is a state-of-the-art intermediate category helicopter. With a capacity to accommodate up to 15 passengers, it has become the preferred aircraft in its class for the Offshore Oil and Gas Industry.

Martin Steynberg, Chairman & CEO of Titan Helicopters Group, commented: "We are delighted to have procured two AW139 helicopters from Rotortrade for our offshore operations in Brazil. These helicopters have been retrofitted to the latest OGP standards and Rotortrade has exhibited utmost professionalism throughout the entire process. With this acquisition, we aim to fortify our strategic partnerships in this rapidly growing segment."

Aurelien Blanc, EVP of Rotortrade said :“We thank Titan Helicopter Group for their trust in this significant acquisition, establishing a strong partnership between the two organizations. Martin, the Titan team and Costa del Sol have demonstrated extraordinary dedication throughout the entire process working very closely with us and Leonardo.”
