

MELBOURNE WILL WELCOME ON 21 FEBRUARY 2019 AERIAL SEARCH & RESCUE ASIA PACIFIC 2019

News / Events / Festivals

Aerial Search & Rescue Asia Pacific 2019, Australia's inaugural aerial search and rescue event, expands its reach after Tangent Link's successful series in Europe over the past six years.

Supported by the Australian Maritime Safety Authority (AMSA), whose search and rescue region covers 53 million square kilometres including the Australian continent, large areas of the Indian, Pacific and Southern Oceans as well as the Australian Antarctic territories, a tenth of the world's surface, it seemed pertinent to bring the event down under.

The two-day conference includes a program covering operational and technical topics, along with the sharing of past experiences and exploring future plans providing delegates with a wide range of actionable material and the opportunity to consolidate on existing knowledge. Subjects to discuss include analysis of SAR in Australia, Malaysia, Papua New Guinea, the Philippines, the Maldives and Antarctica, as well as operational topics covering both fixed and rotary wings and the hot topic of drone regulation. Other presentations investigate the sharing of aerial assets across different mission types, the medical aspects of aerial SAR, leveraging a multi-national approach to SAR and ways of improving SAR

capabilities through the use of Australia's satellite positioning program.

Aerial SAR APAC 2019 will review the latest national and international management policies, provide case studies of recent operations and examine operating procedures. The event will also explore and demonstrate the latest technologies, debate and discuss the questions in the minds of the world's leading exponents and deliberate over how the future of aerial SAR may look.

Speakers include experts from across the aerial SAR world, including

- Mick Kinley - Chief Executive Officer of Australian Maritime Safety Authority
- David Edwards - International Search & Rescue expert, US Coast Guard
- Karel Nemec - Director of Rescue Coordination Centre, LPS SR š. p., Slovakia
- Martin Boyle - Planning, Projects & Risk Manager for the Australian Antarctic Division, Dept of Environment and Energy in Australia
- First Admiral Mohd Izhar bin Hassan - Director, Air Operation Division, Malaysian Maritime Enforcement Agency

International government and military SAR delegations will be joining us from Fiji, the Maldives, Malaysia, New Caledonia, New Zealand, Pakistan, Papua New Guinea, Philippines, Samoa, Seychelles, Slovakia and the USA along with their Australian counterparts.

Additionally, to accessing the conference and exhibition, delegates can join us at the associated networking functions as well as the static display where AMSA's SAR Challenger Jet will be on display.

Company presentations from sponsors including Cobham Aviation Services, Babcock, Toll Helicopters, Sentient Vision Systems, and other significant vendors in the aerial SAR world.

The accompanying industry specific exhibition provides delegates with the opportunity to discuss topics in more detail on a one-to-one basis with the company representatives attending. Exhibitors include Air Affairs Australia, Astronics, Axnes AS, Bristow Group, CarteNav Solutions, Collins Aerospace, Dallas Airmotive, DART Aerospace, Nautilus Aviation, Overwatch Imaging, Point Trading Group, Sikorsky and Toll Group.
