

ACCELERATING GROWTH - DUFOUR AEROSPACE CLOSES NEW INVESTMENT FROM VISTA

News / Business aviation, Finance, Manufacturer

Dufour Aerospace successfully completed a Series B investment from Vista further supporting the continued development of sustainable aviation technologies. In addition to Vista, the existing investors and two new investors participated in the funding round. Vista's investment and deep industry experience provides valuable support in expanding the considerable potential of Dufour innovative tilt-wing technologies and aerospace products. This technology will be applied in Dufour unmanned Aero2 aircraft and its flagship manned Aero3 aircraft.

Thomas Pfammatter, CEO, Dufour Aerospace commented: "We are delighted this financing round was led by Vista, an esteemed global leader in private aviation. Their investment is an important milestone in our journey. They recognise the importance of developing successful products and solutions to support the future of hybrid-electric tilt-wing aircraft."

Thomas Flohr, Founder and Chairman, Vista said: "We are looking forward to supporting the team at Dufour in advancing their sustainable aviation solutions with huge potential to supplement Vista's global service network in the future. It is an exciting time for Dufour, and this investment is in line with our strategy of supporting environmental air mobility solutions which further reiterates

our commitment to ensuring a greener future for our industry."
