

HERITAGE AVIATION EXPANDS AVIONICS EXPERTISE AS NEWLY AUTHORIZED GARMIN AVIATION SERVICE CENTER

News / Business aviation, Maintenance / Trainings

Heritage Aviation is now an authorized Garmin Aviation Service Center. This exciting development allows Heritage Aviation to offer its customers a wider range of service and support solutions from Garmin Aviation, further solidifying its commitment to providing exceptional service in the region. As an authorized Garmin Aviation Service Center, Heritage Aviation's team of experienced technicians can service and maintain a comprehensive range of Garmin avionics solutions, including GPS navigators, autopilots, communication systems, and weather radar. In addition, Heritage will offer expert advice and guidance to meet individual customer needs and provide exceptional after-sales support, including warranty service and ongoing maintenance.

Matthew Collins, CEO at Heritage Aviation commented: "We are thrilled to become an authorized

Garmin Aviation Service Center. Garmin is a renowned leader in avionics technology, and this service center recognition allows us to directly provide our customers with the most innovative and reliable avionics support available. Garmin avionics not only enhance the flying experience but also contribute to increased safety and efficiency.”

Jim Alpiser, Garmin Director Aviation Aftermarket Sales, said: “Heritage Aviation has a stellar reputation for airframe and avionics work that compliments its dedication to customer satisfaction. We are happy to welcome them as a new addition to the Garmin service center community, and we look forward to working with the team at Heritage to provide Garmin customers the highest level of service and support.”
