

TURBINE SERVICES & SOLUTIONS SIGNS EXCLUSIVE REPAIR CONTRACT WITH MTU MAINTENANCE

News / Maintenance / Trainings

Turbine Services & Solutions Aerospace LLC (TS&S Aerospace), a specialized and leading maintenance, repair and overhaul provider for aircraft engines in the Middle East, and MTU Maintenance, the world's largest independent aero engine services provider, signed a long term V2500 parts repair agreement today at the MRO Middle East. This agreement demonstrates TS&S Aerospace's commitment to achieving the most efficient and flexible supply chain for its V2500 customer base.

Abdul Khaliq Saeed, CEO of TS&S, commented: "Today's partnership with MTU Maintenance marks a significant move for TS&S Aerospace as we continue to offer the only specialized IAE approved maintenance repair and service center in the MENA region. We are proud to support the global MRO and aviation industry with our continuous provisions of best-in-class solutions from our facility in Abu Dhabi. Partnerships with top-tier companies from around the world, such as MTU Maintenance, help us consistently ensure this level of service."

"MTU Maintenance is the largest provider of V2500 MRO services worldwide. We are delighted to collaborate with TS&S Aerospace and support them with our extensive parts repair experience," said Frank Haberkamp, Vice President Repair Services, MTU Maintenance. "We are looking forward to developing and strengthening the relationship in the future and are committed to helping TS&S Aerospace provide their customers with the very best solutions."

The new agreement further demonstrates TS&S Aerospace's expanding service line and capability offering, from its state-of-the-art facility located at Abu Dhabi International Airport, in the UAE.
