

WCC AERONAUTICAL AND TECHNOLOGICAL COLLEGE SELECTS ALSIM ALX SIMULATOR

News / Maintenance / Trainings

ALSIM announces the sale of an ALX to WCC Aeronautical and Technological College based in the Philippines. The ALSIM ALX provides up to 4 classes of aircraft-from single-engine piston, twin engine piston, twin turbine up to medium category twin jet. The device is designed and approved for ATPL, CPL, and MCC in compliance with all current regulatory standards. The ALX offers advanced technology simulation equipment tailored to all specific training requirements. In addition, it has a proven track record for cost-effectiveness and helps save numerous aircraft hours.

Jose Benedict E Lopena, the Dean of BS Aviation, major in Commercial Flying, commented: "WCC-ATC chose ALX as it is considered as a major upgrade to enable students to enhance multi-crew and instrument training, especially with the advanced avionics."

Nicolas Fabriès, ALSIM's Sales Account Manager said:" We are very glad that WCC Aeronautical and Technological College has once again chosen ALSIM, more than 12 years after the first ALSIM simulator was installed in their premises. We are committed to bring the best possible training tool to our customers, and we are looking forward to continue this long-time partnership

with WCC Aeronautical and Technological College, a leading flight training institution in South-East Asia.”

WCC Aeronautical and Technological College (WCC-ATC) is the only aviation school in the Philippines that owns and provides complete aviation services to aspiring aviators with its more than fifteen (15) hectares campus, twenty-two (22) flight lines, and most updated facilities. It offers aviation programs, flight attendant trainings, airline service, and repair services.
