

CESSNA CITATION ASCEND PROGRAM CONTINUES TO ADVANCE WITH ROLLOUT OF FIRST PRODUCTION UNIT

News / Business aviation, Manufacturer

Textron Aviation [Cessna Citation Ascend](#) business jet program continues to advance as the first production unit rolled out of the manufacturing facility in Wichita, Kansas. The aircraft is expected to achieve certification from the Federal Aviation Administration later this year.

Employees held a special celebration to mark the major program milestone of the newest Citation business jet in the legendary 560XL series as they continue to design and deliver the best aviation experience for customers.

Todd McKee, senior vice president, Integrated Supply Chain commented: “Today is a big celebration and thank you to everyone who has been a part of building up to this point. It is your craftsmanship that continues to make milestones like this possible. By infusing new technology and bringing new features to the market, we continue to drive the future for us to build these legendary aircraft.”

With more than 1,000 delivered throughout the past 25 years, owners and operators consistently choose the Cessna Citation 560XL series for its unparalleled combination of performance, comfort, ease of operation, range of mission capabilities and favorable operating efficiencies.
