

CIRRUS UNVEILS NEW G3 VISION JET

News / Business aviation, Manufacturer

Cirrus introduced the next evolution of its jet product line with the new Generation 3 Vision Jet. The G3 Vision Jet reveals a reimagined interior with premium materials and an expanded seating option for six adults, as well as ATC Datalink and over 30 refinements designed to create a new era smart and safe Personal Aviation. The Vision Jet is recognized as the world's first single-engine Personal Jet and the [best-selling jet in aviation](#). Known for its V-tail design, a quiet and spacious cabin, safety systems, and intuitive Perspective Touch+™ avionics, the Vision Jet was designed with the pilot and passengers in mind. Cirrus is now delivering the G3 Vision Jet.

Zeane Nielsen, Chief Executive Officer of Cirrus commented: "The G3 Vision Jet is a testament to our relentless innovation, continued investment in Personal Aviation and our owners who want to travel efficiently with award-winning safety features, the Cirrus Airframe Parachute System and Safe Return Emergency Autoland for peace of mind. The G3 Vision Jet interior was engineered for excellence and comfort now offering expanded seating for increased mission capability. The Cirrus

Perspective Touch+ flight deck adds new features for reduced pilot workload including ATC Datalink and Alerts-Linked Checklists while new Cirrus Spectra™ wingtips illuminate the ramp.”

A reimagined cabin

The G3 Vision Jet cabin supports expanded mission capability with pilot and passenger comfort in mind. Now the G3 can seat a total of seven occupants (six adults, one child) with the Premium and Arrivée trims or Xi Designed aircraft. The cabin showcases newly designed seating, tray tables, personal device mount locations and interior aesthetic enhancements to create a flexible, productive and streamlined environment able to adapt to every mission.

Cabin seating expands

- The cabin now features a sleek, comfortable and convenient third-row bench seat to elevate the passenger experience by increasing spaciousness for seven passengers.
- Enhanced bolstered seats tout fine-tuned ergonomics, adding support to the headrest, armrests and knee area for a comfortable journey.
- The pilot and co-pilot seats can now be adjusted to their full aft range with single-hand operation, while the middle and third-row seats remain modular and can be removed or installed to serve the pilot's mission.

Cabin aesthetic upgrades

- All G3 seats feature a new hardshell back with hand-wrapped Alcantara.
- Depending on the G3 Vision Jet trim, seatbacks are now part of the design experience and come equipped with carbon fiber at the Arrivée level.
- Interior colorways are enhanced with two new Standard colors, five Premium offerings and a new collection of Arrivée colors now aligning with the SR Series product line.

Flight deck and exterior light enhancements

The G3 Vision Jet adds Perspective Touch+ flight deck features to reduce pilot workload, increase safety and maximize productivity:

- ATC Datalink: Pilots can text to communicate with air traffic control to receive route updates, altitude assignments and more.
- Automatic Database Updates: Flight data is always up to date, streamlining the preflight process with the [Cirrus IQ PRO Advanced](#) subscription.
- Alerts-Linked Checklists: Provide quick access to relevant checklists in high-workload scenarios when a caution or warning alert may arise.
- Taxiway Routing and 3D SafeTaxi®: Increase situational awareness in airport environments with clear airport surface maps and directions when navigating an unfamiliar airport.
- Cirrus Spectra Wingtips & Lights: New wingtip and landing lights are 2.7 times brighter while the signature Cirrus halo light distinguishes the jet on the ramp.

Cirrus aircraft ownership

Over 700 Vision Jets have been delivered worldwide, maturing to serve business owners, entrepreneurs and those who demand efficient and cost-effective travel. Owners enjoy a lifetime of concierge, streamlined aircraft ownership through the Cirrus ecosystem of services for aircraft sales and management, finance and insurance, flight training, service and more.
