

FIRST A330NEO IN HI FLY LIVERY DELIVERED

News / Airlines, Manufacturer

Hi Fly has taken delivery of a new A330neo on lease from Air Lease Corporation. The aircraft is configured with 371 seats in a two-class layout, with 18 high-comfort lie-flat business class seats and 353 economy seats. All seats are equipped with the latest-generation in-flight entertainment system, and mood lighting is available throughout the aircraft.

The A330 will be deployed to further expand Hi Fly's long-haul wet lease and charter operations worldwide. Hi Fly operates an all-Airbus fleet of 20 aircraft including four A320 Family aircraft, 15 A330/A340 Family aircraft and one A380.

As a wet lease specialist, Hi Fly provides aircraft on lease for short notice airline operations, with crew, maintenance and third-party insurance provided in a service-ready package.

The A330neo Family is the new-generation A330, comprising two versions: the A330-800 and A330-900. The A330neo Family aircraft shares 95% commonality with the previous A330.

It builds on the proven economics, versatility and reliability of the A330 Family, while reducing fuel consumption by 25% per seat versus previous generation competitors and increasing range by up

to 1,500nm compared to the majority of A330s in operation.

The A330neo is powered by Rolls-Royce's latest-generation Trent 7000 engines and features a new wing with increased span and new A350 XWB-inspired Sharklets. The cabin provides the comfort of the new Airspace amenities including state-of-the-art passenger inflight entertainment and Wi-Fi connectivity systems.
