

FIRST BELL 407GXI IN TAIWAN GOES TO GINGER AVIATION

News / Events / Festivals, Manufacturer

Taiwan to Ginger Aviation signed purchase agreement of the first Bell 407GX_i helicopter in Taiwan. Founded by Taiwanese conglomerates in the utilities and aviation industry in 2022, Ginger Aviation plans to use their Bell 407GX_i to address a growing demand for helicopter powerline wash and inspections in country.

Jacinto Monge, managing director, Asia Pacific, Bell, commented: "We are honored that Ginger Aviation has selected the Bell 407GX_i as the first helicopter in their fleet. Given the Bell 407's strong track record in the utility segment globally, we are confident Ginger Aviation's Bell 407GX_i is the right aircraft for powerline wash and management. We look forward to working with Ginger Aviation to support the aircraft's entry into the fleet when it is delivered later this year."

There are more than 1,500 Bell 407s operating around the world in six continents, surpassing six million total fleet flight hours. The aircraft sets a high standard for single-engine aircraft with its unmatched reliability and performance.

The Bell 407GX_i is outfitted with the new Rolls-Royce M250-C47E/4 turbine engine equipped with two dual-channel FADEC turbine, delivering exceptional hot and high performance, fuel efficiency and the ability to cruise at 133 kts/246 km/h. Garmin's G1000H NX_i Integrated Flight Deck, complete with high-resolution displays and faster processors, offers increased brightness and clarity, faster startup and map rendering, as well as connectivity to tablets and smartphones.
