

FIRST ORDER FOR BOMBARDIER GLOBAL 5500 IS SECURED

News / Business aviation, Manufacturer

Bombardier announced the first order for a *Global 5500* aircraft is secured. It will be operated from the West Coast of the United States. This transaction is valued at \$46 million U.S., according to current list prices.

“The *Global 5500* aircraft offers the ultimate in performance, comfort, reliability and signature smooth ride,” said Peter Likoray, Senior Vice President, Worldwide Sales and Marketing, Bombardier Business Aircraft. “It is ideally suited to meet the needs of our customers on the West Coast, connecting Los Angeles to London, Sao Paulo or Moscow*. This order is a resounding example of our newest *Global* aircraft’s undeniable impact on the world of business aviation.”

The *Global 5500* aircraft boasts operating costs that rival all other aircraft in its class, along with the built-in systems redundancy and robustness for which Bombardier *Global* aircraft are renowned. Its newly optimized wing and purpose-built engines make it cleaner and more efficient, offering a superior in-flight experience and a smooth ride to its clientele.

“The combination of additional range, large cabin comfort, smooth ride and short-field performance capabilities, makes the new *Global 5500* aircraft uniquely suited to meet our clients’ west coast missions,” said Brant Dahlfors, Co-founder of Jet Transactions. “We are delighted and proud to represent this remarkable aircraft program’s first end user on the U.S. West Coast.”

***Global 5500* aircraft:** The new *Global 5500* business jet offers a unique blend of innovation, style

and comfort. With its Next Generation leading-edge wing technology and new, purpose-built Rolls-Royce Pearl engines, the *Global 5500* aircraft gives passengers a chance to fly faster and farther, all with the smoothest ride possible. Meticulously designed and crafted with exquisite finishes and high-end craftsmanship, the *Global 5500* aircraft features several ground breaking innovations, including the unique *Nuage* seat, the first new seat architecture in business aviation in 30 years.
