

IRKUT CORPORATION EXPANDS SU-30MKI PROGRAM

News / Manufacturer

Irkut Corporation (a member of UAC) participates in AERO INDIA 2017 Air Show (Bangalore, 14-18 February). The corporate products are represented in models of Su-30MKI, Yak-130, MC-21, and Yak-152 aircraft at the stand of UAC.

Su-30MKI multirole fighters are the exceptional exhibits of AERO INDIA 2017. These aircraft constitute the backbone of the Indian Air Force. Traditionally, Su-30MKIs are presented at static display and in the flight program of the air show.

Su-30MKI program comprising development, deliveries, establishment of licence manufacturing, has become one the most successful Russia's military-technical cooperation programmes. While participating in numerous international exercises, the pilots of Indian Air Force flying Su-30MKI fighters have been repeatedly winning combat training engagements against modern fighter aircraft of various types.

Currently, Indian enterprises are building up Su-30MKI overhaul infrastructure.

The [presentation on Su-30MKI program status](#) is available at the official web-site of Irkut Corporation.

14 FEBRUARY 2017
