

TECNAM INDUSTRY LEADING GREEN AIRCRAFT AT THIS YEAR SUN N' FUN AIRSHOW

News / Events / Festivals, Manufacturer

TECNAM has confirmed its participation in this year's Sun n' Fun Airshow in Lakeland, Florida. The brand will showcase its fleet of ecofriendly aircraft, showcasing the most complete portfolio of solutions in terms of innovation, performance, efficiency and style.

Sun n' Fun Airshow participants will be able to explore TECNAM's broad fleet of aircraft: from the commercial aircraft led by the [P2012 Traveller](#), to IFR four seat, the twin engine [P2006T](#) and the class-leading, [P2010](#) TDI as well as the Light Sport Aircraft (LSA) [P92mkII](#) and [P2008](#).

According to Managing Director Giovanni Pascale Langer, TECNAM's sustainable programs have received great interest from the U.S. customers and media.

"We are leveraging cross-industry expertise via strategic partnerships to develop technologies that are not only sustainable, but also scalable and economically viable," said Pascale Langer. "I look forward to sharing our progress and vision with Sun n' Fun Airshow participants this year."

TECNAM's U.S. Director of Sales David Copeland added that the company is uniquely positioned to address the industry's needs for innovative and more efficient solutions.

“From the growing concerns over fuel pricing to energy and fuel availability, economic value, new and fresh certifications, innovation, style and safety, TECNAM provides the most complete portfolio of solutions in the industry,” said Copeland. “This is a company with a rich, 74-year-long legacy and the vision and the vigor of a game-changing startup.”
